OUSSAMA HALFAOUI

FULLSTACK DEVELOPER

PROFILE

More than 6 year academic career in tech, studying in Morocco, I have
gathered a huge knowledge at developing with many Programming Languages Such
as Java, C, JAVASCRIPT, PHP.. in many fields like : Math
Problems, Finance,DB management.. IT was and still my passion over all these
years and yet I am not tired and ready to put more efforts and energy in it.

EXPERIENCE

2023 **Artiweb**
FullStack Developer, Fes
Integral to a collaborative IT team at Artiweb, I adeptly combined frontend and
backend skills to craft, enhance, and maintain innovative web applications.
Seamlessly blending user interfaces with strong server logic, I optimized
functionality and user experiences. Through close collaboration across teams, I
translated concepts into efficient software solutions, propelling technological
progress within the company.

2021 **Sup'Activities**
IT Instructor, Fes
I had a unique work experience with a group of approximately 20 colleagues. We
initiated a club during our second year at the university, focusing on various
projects. Our primary objective, however, was to educate novice programmers on
crafting applications from the ground up.

2018 **STE INFODAK**
Computer repair technician , Dakhla
I worked at a startup company that offered services encompassing diagnosing and
resolving hardware and software issues. Our responsibilities included repairing or
replacing damaged components as necessary. Additionally, we handled the
installation and configuration of new systems, along with conducting regular
maintenance to ensure seamless computer operations.

EDUCATION

2020 - 2023 **Bachelor - Computer Engineering**
Sup'management, Fes
Summa Cum Laude - With Highest Honors

2017 - 2020 **Baccalaureate - Electrical science and technology**
Lalla Khadija Technical High School, Dakhla
Cum Laude - With Good Honors
